EXPERIENCE

STUDENT

Full Time Student Aug 2019 - Present

- Currently studying Full Stack Web Development, learning new technologies and solving new problems. I practice coding fundamentals regularly, learn new techniques, and consistently add features and updates to existing projects.

CUSTOMER ADVOCATE

ImageFirst Feb 2017 - Aug 2019

- Managed medical linen products and accounts for state-wide client base
- Prospect and establish new accounts and services.

SALES MANAGER

Rim Country Tractors Jan 2016 - Feb 2017

- I helped our team sell over 400% more units than projected while creating and maintaining customer relations data and procedures.

PROJECTS

WuwWug - Trading App
React-FirebaseAuth-Firestore(NoSQL)

Deployed site: https://wuwwug-b2656.web.app

Full Stack Application that allows users to bid on and sell in-game items. Users create an account and add items to sell and find items to bid on. Users can submit a bid for an item and be notified if they have made the highest offer.

Weather Check
React-Flexbox-APIs-Fundamentals

Deployed site: https://biggronn.github.io/WeatherCheck/

App uses the OpenWeatherAPI to allow users to input a city name, then returns information on current weather and 5-day forecast. Searches are saved in local storage to allow users to quickly repeat searches.
